* These institutions' identification as O-SIs is still pending German administrative procedures

** These institutions have been identified as O-SIs based on quantitative optional indicators determined after political agreement voted through the Danish Parliament

*** Eesti Pank will make a decision about the required rates for the O-SII buffer during the first half of 2016.

**** The Central Bank of Ireland is in the process of reviewing its categorisation of O-SIs, prior to finalising the list of O-SII banks for 2016. It is expected that more banks may be identified as O-SIs as part of this review.

NB: Notifications from Bulgaria and Poland were yet to be submitted to EBA at the time of this publication (25 April 2016).
